

Shortlisting Your Priority Options

WORKSHEET

Narrow down to 1–3 strategies you will develop into a business case and ensure quality over quantity

Your Shortlist

Option 1	Option 2	Option 3
Strategy type:	Strategy type:	Strategy type:
Key opportunity:	Key opportunity:	Key opportunity:
Target loop:	Target loop:	Target loop:
Quick win potential:	Quick win potential:	Quick win potential:
Who owns it:	Who owns it:	Who owns it:

Decision Guidance

- ✓ Aim for 1–3 options maximum. More than three dilutes focus and makes the business case harder to develop.
- ✓ Aim for a mix: one 'quick win' (low investment, fast return) plus one more transformative option.
- ✓ Ensure at least one shortlisted option links directly to your MFA hotspots from the Diagnose module.
- ⚠ Don't shortlist options your team doesn't believe in, buy-in matters as much as strategic logic.
- ⚠ Avoid options that depend entirely on a single external partner or unproven technology.
